Independent Auditor's Report

To the Members of the
Board of Directors of the
Michigan State Housing
Development Authority
and
Mr. Thomas H. McTavish
Auditor General, State of Michigan
Lansing, Michigan

We have audited the accompanying basic financial statements of Michigan State Housing Development Authority (the "Authority"), a component unit of the State of Michigan, as of and for the years ended June 30, 2007 and 2006, as listed in the table of contents. These basic financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these basic financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of Michigan State Housing Development Authority as of June 30, 2007 and 2006 and the changes in its financial position and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis (unaudited) (identified in the table of contents) is not a required part of the basic financial statements but is supplemental information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

To the Members of the
Board of Directors of the
Michigan State Housing
Development Authority
and
Mr. Thomas H. McTavish
Auditor General, State of Michigan

In accordance with *Government Auditing Standards*, we have also issued our report dated October 22, 2007 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide opinions on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Michigan State Housing Development Authority

Management's Discussion and Analysis (Unaudited)

Michigan State Housing Development Authority (the "Authority") provides financial and technical assistance through public and private partnerships to create and preserve decent, affordable housing for low- and moderate-income Michigan residents. The Authority was created under the terms of Act 346, Public Acts of Michigan, 1966, as amended. The Authority is authorized to issue its bonds and notes to the investing public in order to create a flow of private capital through the Authority into mortgage loans to qualified housing sponsors and to certain qualified individuals.

The Authority offers a variety of programs to provide affordable housing opportunities, such as single-family lending, low-interest property improvement lending, multi-family lending, mortgage credit certificates, and pass-through obligations.

The enclosed financial statements present the Authority's financial position, revenue, expenses, changes in net assets, and cash flows. The following is a condensed summary of financial information as of and for the years ended June 30, 2007, 2006, and 2005.

Financial Analysis

Total assets increased from \$2.83 billion at June 30, 2006 to \$2.87 billion at June 30, 2007. This was an increase of approximately \$44.7 million, or 1.6 percent. Total assets increased from \$2.70 billion at June 30, 2005 to \$2.83 billion at June 30, 2006. This was an increase of approximately \$133.7 million, or 4.9 percent.

Net loans receivable increased from \$1,941.6 million at June 30, 2006 to \$2,138.1 million at June 30, 2007. Loans receivable increased due to improved single-family mortgage (net increase of \$114.2 million) and multi-family mortgage (net increase of \$86.3 million) loan production. Net loans receivable increased from \$1,805.6 million at June 30, 2005 to \$1,941.6 million at June 30, 2006. Loans receivable increased due to a single-family mortgage loan balance increase of \$81.0 million and multi-family mortgage loan increase of \$56.2 million.

Bonds payable increased from \$1,766.2 million at June 30, 2006 to \$1,785.2 million at June 30, 2007, a net increase of approximately \$19.0 million. This increase was due primarily to the Authority issuing \$224.4 million of Rental Housing Revenue Bonds, while bond calls and scheduled debt service totaled \$206.9 million. Bonds payable increased from \$1,621.1 million at June 30, 2005 to \$1,766.2 million at June 30, 2006, a net increase of approximately \$145.1 million. This increase was primarily due to the Authority issuing \$220.7 million of Rental Housing Revenue Bonds and \$294.9 million of Single-Family Mortgage Revenue Bonds during the fiscal year, while bond calls and scheduled debt service totaled \$370.7 million.

Management's Discussion and Analysis (Unaudited) (Continued)

Escrow funds, which are recorded in other liabilities, decreased by \$2.2 million to \$345.0 million at June 30, 2007 from a year earlier due to the prepayment of multi-family developments with large reserves. Escrow funds decreased by \$42.6 million to \$347.2 million at June 30, 2006 from a year earlier, also due to the prepayment of multi-family developments with large reserves.

The Authority's net assets totaled \$652.3 million at June 30, 2007, equal to 22.7 percent of total assets and 29.3 percent of total liabilities. A significant portion of net assets is restricted. At June 30, 2007, \$266.6 million of net assets was pledged for payment against the various bond indentures. In addition, \$162.1 million is designated by board resolution, represented by the Community Development Fund. The Authority's net assets totaled \$620.0 million at June 30, 2006, equal to 21.9 percent of total assets and 28.0 percent of total liabilities. A significant portion of net assets is restricted. At June 30, 2006, \$265.3 million of net assets was pledged for payment against the various bond indentures. In addition, \$114.4 million is designated by board resolution for the Community Development Fund.

Operating Results

Operations for the year ended June 30, 2007 resulted in excess of revenues over expenses of \$32.3 million compared to prior year results of \$23.6 million. Under the Governmental Accounting Standards Board (GASB) Statement No. 31, the Authority is required to present investments at fair market value and reflect this adjustment in the statement of revenue, expenses, and changes in net assets. This presentation decreased revenue over expenses by approximately \$356,000. Results for the year ended June 30, 2006 were positively impacted by an increase of \$2.0 million. Currently, GASB No. 31 has had a cumulative negative effect of \$1.9 million on the Authority's net assets; however, the Authority generally intends to hold these securities to maturity. Operations for the year ended June 30, 2006 resulted in excess of revenues over expenses of \$23.6 million, compared to prior year results of \$43.6 million.

Net investment income increased from \$55.9 million in 2006 to \$62.8 million in 2007, an increase of \$6.9 million. On November 16, 2005, the Authority amended a \$50 million investment with the Michigan Broadband Development Authority (MBDA) and agreed to write-off approximately \$13.7 million and record \$5.1 million of previously unrealized interest income on the MBDA investment resulting in a negative impact of \$8.6 million in net investment income for June 30, 2006. In the agreement, MBDA assigned all principal and interest payments from all loans to MSHDA. Net investment income decreased from \$66.2 million in 2005 to \$55.9 million in 2006, a decrease of \$10.3 million. The positive impact of GASB No. 31 was less at June 30, 2006 (\$2.0 million) as compared to June 30, 2005 (\$3.0 million); this made for a negative differential of \$1.0 million. Gain on sale of investments increased over the prior year by \$2.3 million.

Management's Discussion and Analysis (Unaudited) (Continued)

Total revenue increased from \$488.5 million for the year ended June 30, 2006 to \$518.6 million for the year ended June 30, 2007, a net increase of \$30.1 million. Total revenue increased due primarily to the increase of federal assistance program revenue of \$18.5 million, the increase of net interest income of \$6.8 million, and an increase in preservation fees of \$4.0 million. Under the preservation program, the Authority receives a portion of excess reserves of multi-family developments and the developments' owners. Based on an agreement, the owners are permitted to borrow a portion of the excess revenue if they preserve the developments for occupancy by low-income families. The preservation fees are realized based on the timing of the agreements. Total revenue increased from \$484.9 million for the year ended June 30, 2005 to \$488.5 million for the year ended June 30, 2006, a net increase of \$3.6 million. Total revenue increased due primarily to the increase of federal assistance program revenue of \$14.2 million and the increase of Section 8 program administrative fees of \$3.0 million, which were partially offset by a decrease of net investment income of \$10.2 million.

Total operating expenses increased from \$449.1 million for the year ended June 30, 2006 to \$471.6 million for the year ended June 30, 2007, a net increase of \$22.5 million. Total operating expenses increased due primarily to an increase in the federal assistance programs of \$18.5 million and an increase in the provision for possible losses on loans of \$4.6 million. Total operating expenses increased from \$425.6 million for the year ended June 30, 2005 to \$449.1 million for the year ended June 30, 2006, a net increase of \$23.4 million. Total operating expenses increased due primarily to an increase in federal assistance programs of \$14.2 million and an increase in salaries and benefits and other general operating expenses of \$9.4 million.

Michigan State Housing Development Authority

Notes to Financial Statements June 30, 2007 and 2006

Note 1 - Authorizing Legislation

The Michigan State Housing Development Authority (the "Authority") was created by the Michigan Legislature under the provisions of the State Housing Development Authority Act of 1966, as amended (the "Act"). The Authority, as a special purpose entity, is a component unit of the State of Michigan and is reported as an Enterprise Fund in the State's Comprehensive Annual Financial Report. The Act empowers the Authority, among other things, to issue notes and bonds to finance housing for sale or rental to families with low and moderate income and to finance home improvements. The enabling legislation, along with the various bond and note resolutions adopted by the Authority, contain specific provisions pertaining to (a) the use of the proceeds from the sale of the notes and bonds, (b) the application of the revenues from mortgages, and (c) the creation of certain funds along with the accounting policies for such funds. As of June 30, 2007, the Authority is authorized by statute to have notes and bonds outstanding up to a total of \$4.2 billion.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The Authority follows the business-type activities reporting requirements of GASB Statement No. 34 that provides a comprehensive one-line look at the Authority's financial activities.

Basis of Accounting - The Authority's financial statements have been prepared on the basis of the governmental proprietary fund concept which pertains to financial activities that operate in a manner similar to private business enterprises and are financed through fees and charges assessed primarily to the users of the services. The Authority applies all applicable Governmental Accounting Standards Board (GASB) pronouncements, as well as all Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB) issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. After November 30, 1989, the Authority only applies applicable GASB pronouncements.

Cash and Cash Equivalents - The Authority considers all highly liquid investments with an original maturity of three months or less to be cash and cash equivalents. The Authority also considers the U.S. government money market funds to be cash and cash equivalents.

Michigan State Housing Development Authority

Notes to Financial Statements June 30, 2007 and 2006

Note 2 - Summary of Significant Accounting Policies (Continued)

Investments - The Authority reports investments at fair value based on quoted market prices. The collateralized and uncollateralized investment agreements are not transferable and are considered nonparticipating contracts. As such, both types of investment agreements are carried at contract value. The net increase (decrease) in the fair value of investments includes both realized and unrealized gains and losses.

Multi-family Mortgage Loans Receivable - Multi-family mortgage loans receivable consist of the remaining principal due from mortgagors of each completed development and construction advances for each development under construction under the multi-family program. Housing developments securing multi-family loans are subject to regulatory agreements under which the Authority has certain powers relating to rents, cash distributions, occupancy, management, and operations. Monies representing escrow funds for reserves for the payment of property taxes, insurance, property repairs and replacements, and income in excess of allowable cash distributions are required to be deposited with the Authority. Investment income earned on the deposited funds is credited to the respective mortgagors' escrow accounts.

Allowance on Loans Receivable - It is the Authority's policy to provide for future losses on mortgage loans based on an evaluation of the loan portfolio, current economic conditions, and such other factors, which, in the Authority's judgment, require consideration in estimating future mortgage loan losses. The allowance is maintained at a level considered by management to be adequate to provide for probable mortgage loan losses inherent in the portfolio.

Loan Origination Fees - The Authority charges the mortgagor of each multi-family development a loan origination fee equal to 2 percent of the mortgage loan. These fees are amortized over the term of the loan receivable using the interest method.

Unamortized Bond Financing Costs - The costs of issuing bonds, other than bond discount, have been deferred and are amortized using the interest method over the term of the related debt.

Compensated Absences - Authority employees accrue vacation and sick leave in varying amounts for each biweekly period worked. Employees may accumulate, subject to certain limitations, vacation and sick leave and upon retirement, termination, or death may be compensated for certain accumulated amounts at their then current rates of pay. The Authority records an expense for all accumulated vacation and sick leave that the Authority would be required to pay if all employees terminated their employment. The compensated absences included in other liabilities at June 30, 2007 and 2006 totaled \$3,255,291 and \$3,094,374, respectively.

Michigan State Housing Development Authority

Notes to Financial Statements June 30, 2007 and 2006

Note 2 - Summary of Significant Accounting Policies (Continued)

Arbitrage Rebate - Federal income tax rules limit the investment and loan yields which the Authority may retain for its own use from investing the proceeds from certain of its tax-exempt bond issues. The excess yields are payable to the U.S. Treasury and are recorded in other liabilities.

Restricted Assets - Substantially all of the assets of the Authority are pledged for payment against the various bond indentures.

Section 8 Program - The Authority is the administrator of various Section 8 housing programs in Michigan for the U.S. Department of Housing and Urban Development. The Authority receives federal financial assistance to provide rental subsidies to the tenants of various housing developments and for program administration costs.

Operating Revenues and Expenses - The Authority was created with the authority to issue bonds to the investing public in order to create a flow of private capital through the Authority into mortgage loans to qualified housing sponsors and to certain qualified individuals. The Authority's primary operation is to borrow funds in the bond market and use those funds to make single-family and multi-family loans. Its primary operating revenue is derived from the investment income from proceeds of bond funds. The primary cost of the program is interest expense on bonds outstanding. Net investment income is an important measure of performance under the Authority's primary operation. Investment income, interest expense, and net investment income are shown as operating revenues in the statement of revenue, expenses, and changes in net assets.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Total	<u>\$ 314,522</u>	<u>\$ 538,750</u>	<u>\$ 853,272</u>

The Authority has designated seven banks for the deposit of its funds. The investment policy adopted by the board in accordance with state statutes has authorized investment of funds held in reserve or sinking funds, or monies not required for immediate use or disbursement, in obligations of the State of Michigan or the United States government, in obligations of which the principal and interest are guaranteed by the State of Michigan or the United States government, bank accounts, and CDs. The Authority's deposits and investment policies are in accordance with state statutes and any exceptions have had special approval from the state treasurer.

Note 3 - Deposits and Investments (Continued)

The Authority's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a deposit policy for custodial credit risk. At June 30, 2007, the Authority had approximately \$122,933,000 of bank deposits (certificates of deposit, checking and savings accounts, and government money market funds) and of that balance \$117,551,000 was uninsured and uncollateralized. At June 30, 2006, the Authority had approximately \$287,267,000 of bank deposits (certificates of deposit, checking and savings accounts, and government money market funds) and of that balance \$284,466,000 was uninsured and uncollateralized. The Authority believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. To limit its risk, the Authority has deposits that are uninsured but collateralized. There are deposits of \$4,597,275 and \$2,100,080 for the years ended June 30, 2007 and 2006, respectively, collateralized with securities held by the pledging financial institution's trust department but not in the Authority's name. To also limit its risk, the Authority evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority does not have a policy for custodial credit risk. At year end, the following investment securities were uninsured and unregistered, with securities held by the counterparty's trust department or agent but not in the Authority's name:

Type of Investment	Carrying Value (in thousands of dollars)		How Held
	2007	2006	
Investment agreements	\$ 13,900	\$ 16,557	Counterparty's trust dept.

Note 3 - Deposits and Investments (Continued)

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Authority's investment policy does not restrict investment maturities. At year end, the average maturities of investments are as follows (in thousands of dollars):

Type of Investment	Fair Value	Less than One Year	1-5 Years	6-10 Years	More Than 10 Years

Concentration of Credit Risk

The Authority has 41 percent and 54 percent of its investment portfolio invested in the securities of government-sponsored enterprises as of June 30, 2007 and 2006, respectively. These include securities issued by the Federal Home Loan Banks, Federal Home Loan Mortgage Corporation, and the Federal National Mortgage Corporation. Excluding U.S. government securities, no other issuer represents over 5 percent of the Authority's investment portfolio.

Escrow Funds - Included in investments are funds held in trust for mortgagors with a carrying value of \$435,840,000 and \$424,963,000 at June 30, 2007 and 2006, respectively.

Note 3 - Deposits and Investments (Continued)

Michigan Broadband Development Authority (MBDA) - On November 16, 2005, the Authority renegotiated its previous \$50,000,000 investment commitment with MBDA. The Authority made available \$35,483,810 to MBDA, of which \$21,992,613 was to fund future loan disbursements, \$1,245,000 for future operating expenses, and \$12,246,197 for existing loans. As of June 30, 2007, \$15,371,185 of loans were outstanding, \$10,109,704 was available to fund existing commitment, and no funds were available for operating expenses. MBDA has assigned the Authority all principal and interest payments from current and future loans.

Note 4 - Loans Receivable

All loans receivable are collateralized by first liens on the real property developed or purchased with the proceeds of the loans, except for certain home improvement and moderate rehabilitation loans. Substantially all single-family loans are insured by the Federal Housing Administration (FHA) or private mortgage insurance companies, or are guaranteed by the Veterans Administration (VA) or the United States Department of Agriculture. Substantially all multi-family loans are uninsured.

A summary of loans receivable are as follows (in thousands of dollars):

	2007	2006
Loans receivable:		
FHA insured, VA, or Department of Agriculture guaranteed	\$ 435,445	\$ 398,703

Note 5 - Bonds Payable

The Authority issues revenue bonds to provide loans to finance multi-family housing projects, single-family housing units, and home improvements for persons of low and moderate income within the state of Michigan. Such bonds constitute a direct obligation of the Authority and are not a debt of the State of Michigan. Each bond issue is secured by the pledge of all repayments to the Authority of loans issued with the proceeds of the bond issue, and all income earned by the Authority relating to those bonds. Interest on all bonds, except capital appreciation bonds, is payable semiannually. Capital appreciation bonds are bonds that are issued at a deep discount and for which all interest is accrued and paid at retirement. The Authority amortizes the discount using the interest method over the terms of the bonds. Capital appreciation bonds in the following table are shown net of unamortized discount. All bonds are subject to a variety of redemption provisions as set forth in the official statements for each of the issues. One such redemption provision is that each of the bond resolutions contains cross-default provisions which permit the acceleration of the maturity of all such bonds, as well as certain other remedies, in the event of a default by the Authority in the payment of principal or interest on any bond of the Authority.

Changes in bonds are as follows:

	Beginning Balance	Additions	Payments	Ending Balance

Early Retirement of Debt - Under provisions of the Authority's bond issues, the Authority is able to retire bonds, without the payment of call premiums, prior to their maturity dates from the proceeds of loan prepayments and foreclosures and, for certain bonds, from excess program revenues. Bonds retired pursuant to such provisions total \$161,775,000 and \$114,295,000 during the years ended June 30, 2007 and 2006, respectively. Such bond retirements, in the aggregate, resulted in a net loss of \$602,000 and \$426,000 for the years ended June 30, 2007 and 2006, respectively. These losses represent the net write-off of related bond issuance costs, and are recorded in interest expense and debt financing costs in the statement of revenue, expenses, and changes in net assets.

Once Dexia becomes the owner of the bonds, the bonds will be subject to a mandatory redemption that begins the first business day of January, April, July, or October and are amortized in 20 equal quarterly installments. The Authority is required to pay Dexia an annual commitment fee of 0.17 percent per annum on the amount of bonds outstanding plus interest for 185 days at a rate of 14 percent.
- (6) While Dexia is holding the bonds, they will bear interest at the higher of Dexia's prime rate or the Federal Funds Rate plus 0.50 percent per annum. Once Dexia becomes the owner of the bonds, the bonds will be subject to a mandatory redemption that begins the first business day of January, April, July, or October after Dexia becomes the holder of the bonds and are amortized within five years in equal quarterly installments. The Authority is required to pay Dexia an annual commitment fee of 0.17 percent per annum on the amount of bonds outstanding plus interest for 183 days at a rate of 14 percent.
- (7) While the bonds are held by JP Morgan, they shall bear interest at a rate determined in reference to the British Bankers' Association Interest Settlement Rate, as adjusted for JP Morgan's reserve requirement, plus 0.70 percent and will be subject to mandatory redemption by the Authority on a quarterly basis beginning six months and ending five years after the purchase by JP Morgan. The Authority is required to pay an annual commitment fee of 0.14 percent per annum on the amount of bonds outstanding plus interest for 205 days at a rate of 14 percent per annum.
- (8) While Dexia is holding the bonds, they will bear interest at the higher of Dexia's prime rate or the Federal Funds Rate plus 0.50 percent per annum. Once Dexia becomes the owner of the bonds, the bonds will be subject to a mandatory redemption that begins on the earlier of the 181st day after the purchase date or the first business day of the sixth month after the end of the purchase period and are amortized over 14 equal semiannual installments. The Authority is required to pay Dexia an annual commitment fee of 0.175 percent per annum on the amount of bonds outstanding plus interest for 185 days at a rate of 12 percent per annum for the Series C Bonds and at a rate of 18 percent per annum for the Series D Bonds.
- (9) Helaba has the option to terminate the standby bond purchase agreement on January 26, 2009 and 2012.

Note 6 - Demand Bonds (Continued)

- (10) The trustee is entitled to draw on the irrevocable letter of credit, issued by Helaba, in an amount sufficient to pay the purchase price of bonds delivered to it. The Authority must repay the bank for each draw on the letter of credit by its expiration date. Interest is also payable on any of these draws outstanding at a variable rate not to exceed 25 percent. The Authority is required to pay Helaba an annual commitment fee for the letter of credit of 0.26 percent per annum of the amount of the outstanding bonds plus interest for 41 days at 25 percent per annum. Helaba has the option to terminate the standby bond purchase agreement on January 26, 2009 and 2012.
- (11) While DEPFA Bank is holding the bonds, they will bear interest at the higher of the Federal Funds Rate plus 0.50 percent per annum or the prime rate. Once DEPFA Bank becomes the owner of the bonds, the bonds will be subject to a mandatory redemption that begins the first of October following the 91st day DEPFA purchased the bonds and will amortized in equal semiannual principal installments until the seventh anniversary of such purchase date. The Authority shall pay DEPFA Bank a commitment fee of 8 basis points per annum on outstanding bonds plus 184 days interest at 12 percent (tax-exempt bonds) and 15 percent (taxable bonds), based on a 365-day year. Standard & Poor's lowered its rating on DEPFA to "A+/A-1" from "AA-/A-1+" on July 23, 2007.
- (12) While Fortis Bank is holding the bonds, they will bear interest of the greater of Fortis Bank's prime rate or the Federal Funds Rate plus 0.50 percent per annum. The Authority agrees to cause the mandatory redemption of bonds outstanding, in 10 equal installments each April and October commencing on the first such date to occur following the 91st day after Fortis Bank becomes the bond holder. The Authority is required to pay Fortis Bank an annual commitment fee of 11 basis points per annum on bonds outstanding plus 184 days of interest at 12 percent, based on a 365-day year.
- (13) While West LB is holding the bonds, they will bear interest at the higher of the Federal Funds Rate plus 0.50 percent per annum or the prime rate for the first 90 days, add 0.50 percent per annum for days 91 through 180, and add 1.00 percent per annum from day 181 until the bonds are repaid. Once West LB becomes the owner of the bonds, the bonds will be subject to mandatory redemption in 10 equal installments each April and October. The Authority shall pay West LB a commitment fee of 14 basis points per annum on outstanding bonds plus 184 days of interest at 12 percent (tax-exempt bonds) and 15 percent (taxable bonds), based on a 365-day year.

Note 7 - Deferred Mortgage Interest Income

Since 1990, the Authority has refunded a substantial amount of high yielding multi-family bond issues with lower yielding bonds. In conjunction with the sale of certain refunding bonds, the Authority has sold additional bonds to provide funds for new multi-family mortgage loans, generally with interest rates below the interest rates on the bonds. The Authority is deferring the interest income on mortgage loans funded by the new bonds to the extent that the total exceeds the total interest income that would have been earned if the average interest rate on such loans was equal to the average interest rate paid on the new bonds plus approximately 1.5 percent. This deferred interest income is and will continue to be amortized to income in the future as the average rate on the outstanding mortgage loans drops to a rate that is less than 1.5 percent above the average rate on the new bonds. The average rate will decline primarily because the higher yielding mortgage loans have average remaining lives substantially shorter than the lower yielding mortgage loans.

Notes to Financial Statements June 30, 2007 and 2006

Note 8 - Limited Obligation Bonds

The Act, as amended, authorizes the Authority to issue limited obligation bonds to finance multi-family housing. Such bonds are not general obligations of the Authority and the Authority has no liability for this debt. Such bonds are secured solely by revenues and property derived from or obtained in connection with the housing projects. Thus, with the exception of limited obligation bond financing fees, transactions related to these bonds are not reflected in the Authority's financial statements. At June 30, 2007, limited obligation bonds had been issued totaling approximately \$771,148,000, of which 20 issues totaling \$235,098,000 have been retired.

Note 9 - Other Employee Benefits

Plan Description - The Authority participates in the State of Michigan's defined benefit and defined contribution plans system that covers most state employees, as well as related component units such as Michigan State Housing Development Authority. The defined benefit plan provides retirement, disability, death benefits, and annual cost of living adjustments to plan members. The system issues a publicly available financial report that includes financial statements and required supplementary information for the system. The report may be obtained by writing to the system at 7150 Harris Drive, P.O. Box 30171, Lansing, MI 48909.

Funding Policy - Plan members are not required to make contributions: The Authority is required to contribute an actuarially determined rate for the defined benefit plan that ranged from 10.22 percent to 33.22 percent of payroll for the year. The defined benefit contributions to the plan were equal to the required contributions for each year. The Authority is required to contribute to the defined contribution plan 4.0 percent of payroll with an additional match of up to 3.0 percent. The contribution requirements of plan members and the Authority are established and may be amended by the state legislature. The state legislature establishes the extent to which employer and employees are required to make contributions and establish the benefit provisions for the plan. The Authority's contributions to the plans, including postemployment benefits as described below, were \$3,508,000, \$3,256,000, and \$2,283,000 for the years ended June 30, 2007, 2006, and 2005, respectively, and are recorded in salaries and benefits expense.

Michigan State Housing Development Authority

Notes to Financial Statements June 30, 2007 and 2006

Note 9 - Other Employee Benefits (Continued)

Postemployment Benefits - In addition, the Authority participates in the State of Michigan's postemployment benefits. The cost of retiree healthcare benefits is an allocation calculated by the State of Michigan and funded on a pay-as-you-go basis. The contributions paid to this plan for the year ended June 30, 2006 were 12.2 percent of payroll. Employees hired on or before March 30, 1997, who participate in either the defined benefit plan or the defined contribution plan and meet certain vesting and other requirements, will receive the full amount of healthcare benefits from the State of Michigan. For employees who were hired after March 30, 1997, the State will pay up to 90 percent of healthcare benefits for employees who meet certain vesting and other requirements.

Note 10 - Operating Lease

The Authority leases its office building in Lansing, Michigan under an agreement that expires February 28, 2021. The lease is subject to an annual adjustment equal to 60 percent of the increase or decrease in the U.S. Department of Labor's Bureau of Labor Statistics Consumer Price Index. Expense incurred related to the operating lease was \$2,164,500 and \$2,103,200 for the years ended June 30, 2007 and 2006, respectively. The estimated minimum annual payments under this lease are as follows:

2008	\$ 2,229,435
2009	2,294,370
2010	2,359,305
2011	2,424,240

Multi-family revenue bonds	1,265	1,629
Total	<u>\$ 266,612</u>	<u>\$ 265,313</u>

Note 12 - Contingencies

The Authority is involved in various legal proceedings, claims, and disputes arising in the ordinary course of its financing activities with real estate developers and others. Management does not expect the amount of the ultimate liability with respect to the disposition of these matters will have any material adverse impact on the financial condition or results of operations of the Authority.

Note 13 - Commitments

As of June 30, 2007 and 2006, the Authority has commitments to issue multi-family mortgage loans in the amounts of \$45,222,000 and \$75,623,000, respectively, and single-family mortgage loans in the amounts of \$35,073,000 and \$21,650,000, respectively.

The Authority has committed up to approximately \$1,055,000 per year for up to 30 years from the date of completion of the respective developments (subject to three years' advance notice of termination) from its accumulated reserves and future income to subsidize operations or rents for certain tenants occupying units in certain developments funded under the Authority's multi-family program. Such developments receive funds either for the purpose of subsidizing rents so that some units can be afforded by families with incomes at 50 percent or less of median income or to subsidize operations in general. Subsidy disbursements began in 1985 and totaled approximately \$949,000 and \$798,000 for the years ended June 30, 2007 and 2006, respectively.

Michigan State Housing Development Authority

Notes to Financial Statements June 30, 2007 and 2006

Note 13 - Commitments (Continued)

In addition, the Authority makes available up to approximately \$1,000,000 per year for up to 30 years to subsidize rents in a similar fashion for 20 percent of the units in certain other developments financed or to be financed under its multi-family mortgage lending program. Under this program, the Authority is entitled to receive a portion of any excess cash flow generated by the developments as well as a share of the profits from the sale of the developments and is able to reduce the rent subsidies if the interest rates being charged by the Authority on the related mortgage loans are below certain preset levels. Subsidy repayment did not exceed subsidy disbursements for the year ended June 30, 2007. For the year ended June 30, 2006, the subsidy repayment exceeded subsidy disbursements by \$6,000.

In conjunction with a multi-family taxable bond lending program, the Authority is making available annually to certain developments financed under the program an amount equal to 400 times the number of units in such developments (subject to a one-year advance notice of termination) for the purpose of subsidizing rents so that some of the units in such developments can be made available to very low-income tenants. Under certain circumstances, after 15 years or more, the owners of the developments will be required to repay without interest up to 100 percent of the subsidies provided by the Authority. The Authority has not established a maximum amount that it will make available under this program. Subsidy disbursements under this program totaled \$883,000 and \$959,000 for the years ended June 30, 2007 and 2006, respectively.

Finally, the Authority also makes available interest-free loans of up to \$25,000 annually to developments that incur increased operating costs because of their small size (less than 100 rental units) and up to \$25,000 annually for developments that incur increased security costs due to their location. The loans are repayable from excess development revenues and are also repayable upon repayment of the first mortgage loan. Disbursements under this program totaled \$604,000 and \$472,000 for the years ended June 30, 2007 and 2006, respectively.

Grants and Subsidies

Disbursements under these programs are included in grants and subsidies along with grants made to nonprofit organizations pursuant to various programs that have as their purpose increasing the supply of affordable housing for low- and medium-income families in Michigan and the provision of temporary shelter for homeless individuals and families.

Notes to Financial Statements June 30, 2007 and 2006

Note 14 - Off-balance-sheet Financial Instruments

In connection with the issuance of various debt, the Authority has entered into interest rate swap contracts. To date, the interest rate swap contracts have all been the type where the Authority pays a fixed rate and receives a variable rate. No amount of compensation was paid or received at the time the contracts were executed. Interest rate swap agreements are important tools that the Authority utilizes to accomplish its goals. These contracts have reduced the Authority's cost of borrowing and reduced exposure to variable interest rate risk. This has allowed the Authority to finance developments, reduce single-family mortgage rates, and fund programs that otherwise would not have been feasible.

- (1) Counterparty risk is the risk that the swap counterparty will not fulfill its obligations set forth under the terms and conditions of the swap contract. The counterparty associated with these bonds is Goldman Sachs Mitsui Marine Derivative Products, L.P. (GSMDP). GSMDP is currently Aaa by Moody's and AAA by S&P as of June 30, 2007.

Note 14 - Off-balance-sheet Financial Instruments (Continued)

- (2) Counterparty risk is the risk that the swap counterparty will not fulfill its obligations set forth under the terms and conditions of the swap contract. The counterparty associated with these bonds is Lehman Brothers Derivative Product Inc. (LBDP). LBDP is currently rated Aaa by Moody's and AAA by S&P as of June 30, 2007.
- (3) Counterparty risk is the risk that the swap counterpart will not fulfill its obligations set forth under the terms and conditions of the swap contract. The counterparty associated with these bonds is Merrill Lynch Capital Services, Inc. (MLES) or Merrill Lynch Derivative Products (MLDP). MLDP is rated Aaa by Moody's and AAA by S&P as of June 30, 2007. MLES is not rated by Moody's or S&P.
- (4) Termination risk is the risk that the swap could be terminated by the counterparty due to any of several events, which may include an Authority or counterparty ratings downgrade, covenant violation by either party, bankruptcy of either party, swap payment default by either party, and default events as defined in the Authority's bond indentures. All contracts have this risk.
- (5) Basis risk refers to a mismatch between the interest rate received from the swap contract and the interest actually paid on the Authority's debt.
- (6) Tax event risk is the risk that a change in the marginal income tax rates or a change in the tax code impacts the trading value of tax-exempt bonds.
- (7) Rollover risk is the risk that the swap contract is not coterminous with the related debt.
- (8) Amortization risk is the risk that there is a mismatch or potential mismatch between the Authority's bonds and the notional amount of the swap outstanding. This mismatch could expose the Authority to variable interest rates if the swap amortizes quicker than the bonds or subject the Authority to a payment to the counterparty to terminate a portion of the swap contract early if the bonds are redeemed quicker than anticipated. All contracts have this risk.
- (9) The Authority has the option to terminate the contract in whole or in part without payment after the stated date.
- (10) The Authority may enter into interest rate swap agreements where the floating rate is one of the following: the Authority's cost of funds, a percentage of BMA Municipal Swap Index plus an increment, a percentage of the Securities Industry and Financial Markets Association (SIFMA) Index plus an increment or the London Inter Bank Offer Rate (LIBOR) plus an increment.

Note 15 - Subsequent Event

Subsequent to year end, the Authority issued \$244,330,000 of Single-family Mortgage Revenue Bonds, 2007 Series A, B and C. These bonds were issued to finance single-family mortgage loans and down payment assistance loans. The closing for these bonds occurred on July 12, 2007.

On September 20, 2007, The Authority entered into an interest rate swap agreement with Lehman Brothers Derivative Products Inc. The notional amount of the trade is \$35,000,000, the fixed rate the Authority will pay is 4.5032 percent, and the Authority will receive a floating rate.

Report on Internal Control Over Financial Reporting and on Compliance and
Other Matters Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards*

To the Members of the
Board of Directors of the
Michigan State Housing
Development Authority
and
Mr. Thomas H. McTavish
Auditor General, State of Michigan
Lansing, Michigan

We have audited the basic financial statements of Michigan State Housing Development Authority (the "Authority"), a component unit of the State of Michigan, as of and for the years ended June 30, 2007 and 2006 and have issued our reports thereon dated October 22, 2007 and October 20, 2006, respectively. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

To the Members of the
Board of Directors of the
Michigan State Housing
Development Authority
and
Mr. Thomas H. McTavish
Auditor General, State of Michigan
Lansing, Michigan

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended for the information of Michigan State Housing Development Authority and the Auditor General of the State of Michigan and is not intended to be, and should not be, used by anyone other than these specified parties.
